

BEAUTY  
OF WOOD  
STRENGTH  
OF ALUMINIUM

# ENJOY THE NATURAL BEAUTY OF TIMBER COMBINED WITH THE EASE AND DURABILITY OF ALUMINIUM.

ezy HD<sup>2</sup> wood effect gives maximum definition and maximum durability using the advance powder on powder coating system. This system is unique to the Australian market and produces a finish with a realistic look and feel, as well as a superior exterior performance.

ezy HD<sup>2</sup> finishing was created from technology developed and patented in Italy for the decoration and protection of architectural aluminium with a natural wood effect. ezy HD<sup>2</sup> is the first system to obtain a realistic wood effect coating using a powder on powder process that ensures high

definition and a highly durable finish for your product.

This cutting-edge technology allows us to capture the tones and contrasts of wood and apply them to aluminium. ezy HD<sup>2</sup> coatings on facades, doors, windows, louvres, fencing, decks and screens, create a sense of the warmth and beauty of wood.

# NEW WOOD-EFFECT COLOURS

The logo for ezy HD² features the word "ezy" in a lowercase, sans-serif font with a red underline, positioned above "HD²" in a larger, bold, uppercase, sans-serif font. A red curved line is positioned above the "ezy" text.

**BLONDE**

**AUSTRALIAN**

**EBONY**

(All three colours displayed in Ash grain pattern)

## **Introducing 3 new colour additions to our ezy HD<sup>2</sup> wood effect colour range.**

ezy HD<sup>2</sup> wood effect achieves maximum definition and maximum durability using an advanced powder on powder coating system applied to architectural aluminium.

ezy HD<sup>2</sup> was designed to meet the needs of surfaces that are particularly exposed to UV rays and extreme weather conditions.

All 12 ezy HD<sup>2</sup> wood effect colours are available in 3 grain patterns; Oak, Ash and Cedar.

# BEAUTY OF WOOD STRENGTH OF ALUMINIUM

ezy HD<sup>2</sup> wood effect coating was created from technology developed and patented in Italy for the decoration and protection of architectural aluminium with a natural wood grain finish.

ezy HD<sup>2</sup> is unique to the Australian market and produces a finish with a realistic look and feel as well as a superior, highly durable performance.

## HIGHLY DURABLE

The use of Super Durable powder in the ezy HD<sup>2</sup> coating guarantees an excellent resistance to UV radiation and extreme weather and is suitable for use in coastal and tropical environments.

The powder on powder process is more durable and less subject to differential fading in comparison to the wood effect products obtained by the sublimation wood effect finish. This is because the grain is the same product and same quality as the base coat ensuring that they both weather at the same time.

**ezy HD<sup>2</sup> is the only wood effect coating in Australia that can offer a 15 year colour and 25 year film integrity warranty for both the base coat and the grain coat.**

ezy HD<sup>2</sup> was designed to meet the needs of surfaces that are particularly exposed to UV rays and extreme weather conditions.

## HIGH STANDARDS

Because we use powders that meet AAMA2604 standards we can guarantee ezy HD<sup>2</sup>'s high performance. The warranty includes a 25 year gloss retention and film performance guarantee for both the base and the grain coat

Powder coatings that pass AAMA2604 standards are highly recommended for installations in coastal areas, in environments with high humidity, pollution and salinity and in all areas characterised by exposure with annual average solar radiation from moderate to extreme.

# SUPERIOR WEATHER RESISTANCE
